E' da questa continua evoluzione la presentazione, da alcuni anni a questa parte, di nuove linee di lavabi d'arredamento costituite attualmente da una gamma molto ampia ed in continua espansione. La filosofia aziendale è quella di rendere il lavabo protagonista del bagno e di impegnarsi al massimo nello studio di nuove linee e nuovi modelli, per soddisfare un mercato sempre più esigente, di non puntare su grandi quantità, ma sulla qualità e sulla unicità dei prodotti.

SCARABEO, founded in 1974, initially specialised in the manufacture of porcelain bathroom accessories. In the space of a few years, thanks to its reliability and commitment, the company firmly secured its position in both the national and international markets. The high quality of its products enabled the company to collaborate with some of the most renowned international manufacturers of bathroom fixtures. The constant search for new products has always been a distinguishing feature of the company, which – over the years – has consistently proven its ability to keep track of the evolving demands of the market. This continuous evolution eventually led to the introduction of new washbasin ranges, and the company now offers an extremely broad and ever-expanding range of products. The company's philosophy is geared towards making the washbasin the focus of the bathroom and dedicating all its energies to creating new ranges and models for satisfying an increasingly demanding market, while putting the emphasis on quality – rather than quantity – and the uniqueness of its products.

A Civita Castellana la lavorazione della ceramica ha origini antichissime, che risalgono all'epoca pre-romana, nell'arco dei secoli le tecniche di lavorazione e i processi produttivi si sono affinati fino a raggiungere l'eccellenza. La ceramica di Scarabeo attraverso la sua produzione si ripropone di recuperare la tecnica dei vari processi lavorativi che tanto sono stati importanti nella tradizione della città. Ogni pezzo viene sottoposto a controlli e attenzioni continue, per correggere qualsiasi imperfezione, garantendo così qualità e bellezza, tanto da avere un apprezzamento crescente sia in ambito nazionale che internazionale.

In Civita Castellana, the ceramic processing industry has ancient origins dating back to the pre-Roman era. Over the course of the centuries, the processing techniques and production processes have evolved to reach high standards of excellence. With its ceramic products, Scarabeo aims to recover the techniques and various processing phases which have been so important for the city's heritage. All items are constantly checked and inspected in order to correct any imperfections and guarantee their quality and beauty; as a result, they are receiving growing appreciation at a national and international level.

Lavabi a norma di sicurezza, comfort e garanzia delle prestazioni nel tempo. A colonna, sospesi, da incasso o semi incasso, l'offerta dei lavabi e dei sanitari in genere è ormai molto diversificata, sia come tipologia dei materiali utilizzati, sia come forme, stile e design. Ma la Scarabeo da una cosa non può prescindere: dalle prestazioni che questi prodotti devono poter garantire nel tempo. La Scarabeo con l'acquisizione del marchio CE certifica che il prodotto è stato realizzato con materiali testati e con procedure rispondenti agli standard di sicurezza riconosciuti ormai da anni. Il marchio CE è stato istituito per fornire adeguate garanzie del rispetto, da parte del fabbricante, di tutti gli obblighi riguardanti la conformità di un prodotto alle direttive comunitarie e la sua applicazione (obbligatoria) introduce delle prove ferree a cui sottoporre i prodotti.

Conforming washbasins entail: safety, comfort and guaranteed long-lasting performance. Whether column, hanging, built-in or semi built-in, our washbasin offer and sanitary ware offer in general has become highly diversified in terms of variety of materials used, forms, style and design. But there is one aspect that Scarabeo cannot overlook: the performance that these products must ensure over time. By obtaining the CE marking, Scarabeo certifies that the product is manufactured with tested materials and procedures conforming to safety standards that have been widely recognised for several years. The CE marking was introduced to enable manufacturers to adequately guarantee the product's conformity to all the obligations outlined in European Community Directives, and its application (which is mandatory) introduces stringent tests to which products must be subjected.
